**South Bay Salt Pond Project/South San Francisco Bay Shoreline Study
Alviso Working Group
Wednesday, August 17, 2011**

6:00-8:30 p.m.

San Jose Santa Clara Water Pollution Control Plant
700 Los Esteros Road, San Jose

Preliminary Alternatives for the Shoreline Study: Flood Protection Options for Alviso

You are invited to attend the upcoming meeting of the SBSP Project/Shoreline Study Alviso Work Group on **Wednesday, August 17, 2011, from 4:00-6:30 p.m.**

The main purpose of this meeting is to brief Work Group members and the Alviso community on initial flood protection levee alignments and associated restoration and public access potentials being developed by the Shoreline Study Team, and to gather input on these items.*

The Shoreline Study team will brief the Group on their initial concepts, and be there to answer questions and seek feedback on these preliminary levee alignment options.

For more information: Mary Selkirk, South Bay Salt Pond Project, mseirk@ccp.csus.edu

*The Shoreline Study is a partnership between the State Coastal Conservancy, the Santa Clara Valley Water District, the US Fish & Wildlife Service and the US Army Corps of Engineers. The purpose of the Study is to determine optimal solutions for flood protection in Alviso and to assess the possibility of securing federal funding for these flood protection measures. The Shoreline Study is being conducted in conjunction with the South Bay Salt Pond Restoration Project.
