

# South Bay Salt Pond Restoration Project

## South Bay Salt Pond Restoration Project Tour Schedule For July and August 2005

The South Bay Salt Pond Restoration Project is offering three tours during July and August 2005 for local government officials. Each tour has a different geographic focus. All tours will take place from 9:00 am to about 1:00 pm. and are limited to eleven participants. Please RSVP by the deadline indicated by sending an email or leaving a message for the RSVP contact person listed for that tour. In order to ensure that we have a broad array of participation, we ask that you limit your reservations to two individuals from each municipality. We will create a waiting list should seats become available after the reservation deadline. Once you have registered, you will receive more detailed information about tour logistics. Thank you for your interest!
